Experience the Comfort of Oil Heat

Spirit Series oil furnaces are versatile and reliable and this is evident in all three series.

— VHF Series - Low-Profile Highboy
— VL Series - Lowboy
— VC Series Horizontal/Counterflow

Standard features consist of a heavy-gauge drum-style heat exchanger and ceramic fiber combustion chamber which serves to greatly reduce combustion noise associated with expansion and contraction. This design heats up quickly, re-radiates heat back into the fire providing more complete combustion and cools down quickly after the burner stops.

Each Spirit oil furnace is built with a heavy duty 22-gauge powder coated cabinet for a durable, tough finish that will ensure long life and a quality appearance. The full cabinet foil-faced high density fiberglass insulation reduces heat loss and sound levels.

Beckett oil burners are respected in the industry and the top choice for quality and reliability. All the components utilize the latest technology and are readily available. All furnaces come with the time-tested Beckett AFG model burner.

Spirit furnaces are equipped with a multi-speed direct drive blower motor. The entire blower assembly can be removed for cleaning. An optional variable speed ECM blower motor is available on the low-profile highboy.

Energy Star Qualified Unit

The VHF-ABT Low-Profile Highboy and the VH8FA119T60B Highboy, both with ECM blower motor and Beckett AFG burner, are Energy Star 4.0 qualified. Products that have earned the Energy Star are designed to protect the environment through superior energy efficiency. Go to www.energystar.gov for additional details.

Limited Lifetime Warranty

We are so confident of our Spirit oil furnace’s quality that we stand behind our products with our Limited Lifetime Warranty on the heat exchanger and 5-year Parts Warranty. See warranty for details.
Heavy duty heat exchanger with long lasting fiber combustion chamber.

PSC blower motor or ECM blower motor for increased energy savings. See specs on back for details.

40 VA transformer and fan control are factory wired for easy add-on cooling installation.

High quality Becket AFG burner

Limited Lifetime Heat Exchanger Warranty to original homeowner and 5-year parts warranty. See warranty for details.

Heavy Duty 22 gauge cabinet with powder coated finish for long-lasting durability

No sharp edges folded and flattened

Independent door removal

Up to 4 tons of cooling. VL & VC models use optional airflow kit

Dual cleanout ports

40 VA transformer and fan control are factory wired for easy add-on cooling installation.

Go to www.energystar.gov for qualifying products.
Add Air Conditioning or a Heat Pump

Add Thermo Pride air conditioning to your Spirit oil furnace for added indoor comfort.

Offered in two efficiency levels, the TC4 Series offers 14 SEER efficiencies and the TC7 offers up to 16 SEER efficiencies.

The TC4 Series is approved for the North and Southeast Regions. The TC7 Series is approved for all U.S. Regions. Both meet the new Regional Minimum Efficiency Standards.

The TC4 Series is available in 2.0, 2.5, 3.0, 4.0 or 5.0 tons of cooling. The TC7 Series is available in 2.0, 2.5, 3.0, 3.5 or 4.0 tons of cooling.

Our air conditioning condensers include a 5-year Peace of Mind Plus Limited Warranty. If the compressor fails within the first 5 years of the date of installation, we will replace the entire condenser. After the fifth year, the air conditioning condenser continues to be covered by our 10-year Compressor and Parts Warranty. The owner must register the product within 90 days of installation to activate warranty coverage. Otherwise, the warranty reverts to 5 years on parts and standard 10-year compressor warranty. See warranty for details.
